SPECIAL INSTRUCTIONS

All lots are carefully attributed, guaranteed genuine, and grade will be found as noted.

Be sure to enter on bid sheet correct lot number and **BID BY LOT IN ALL CASES**. List prices after each item represent the present value of the lots listed. They are not reserve prices, and you must use your own judgment what you wish to bid.

Unlimited or buy bids will be accepted and carried out as far as possible. Such bids insure your getting the lots desired and always at the lowest possible price. I have many patrons who have always bid in this manner and with perfect satisfaction to all concerned.

The terms of this sale are cash promptly on receipt of goods. Remit in whatever way is most convenient. Successful bidders will be notified immediately after sale and coins shipped at once, if credit references are O.K. There is no charge for executing bids, but postage on shipments is added to invoice. I frequently put invoice in with parcel of coins. If your bids are not successful, you will always receive a post card immediately notifying you of that fact.

If you are bidding for the first time, put references on back of bid sheet. If you have bid at my sales and failed to secure the items desired, write me and I will be glad to look up your sheet and tell you where the trouble is. There is much to learn in making bids at mail auction sales.

You are much more likely to be successful in a strictly mail sale than one where a public auction is held the last day, as any one on the floor can bid a few cents over your mail bid and secure the lot. Often a 10 cent bid will lose the item, where you might have been glad to have it at the increased price. It is always a very good idea to bid what you feel you can afford.

The same rules hold good in the handling of fine coins as stocks and bonds. Always sell when the market is good and buy when poor. Never try to get the last dollar. Let the other fellow have a chance at a profit, is a perfectly safe rule.

If you have some very choice Unc and proof USA coins, U. S. Gold or rare foreign pieces, I can get you a satisfactory price thru these auction lists. Have made real money for every patron who sent choice material and expect to continue to do so. Meet me at the convention in Chicago in September and we will talk it over.

GOLD OBAN

- 1198 This is the largest of the Japanese gold coins. Oval in shape, 80 by 134mm, about 3¼ by 5¼ inches. The face of the coin is covered with symmetrical lozenge shaped flutings and stamped at ends and sides with the government crest of the dynasty and the Kiri flower and leaves. The value usually about 10 Ryo is painted in Japanese ink on the face of the coin by the Superintendent of the mint. It came into use in 1573 and was issued until 1860. For a description of the varieties of this rare piece see Munro's work on Japanese coins. This one believed Unc. One similar in my May sale brought \$165.

(The Ryo was a standard of value equal to 10 Momme in Japan. It was used in determining the weight of gold in dust or grains, when this form of metal was used in payment and when the Oban was issued, it was usually stamped with the Ryo value.)

Most of the coins listed were only issued on the dates given and must not be confused with issues over a period of years of same design which are usually much cheaper in price.

Numismatic Chatter

I am running in this issue, if there is room for it, a half tone of the writer made in 1920. I do not feel any older than I did then, maybe look a little older. Look me up at the convention in September. I have a date at the Field Museum at that time and a few other errands in the Windy City. There are many changes since I spent six months at the Worlds Columbian Exposition in 1893.

Every sale so far this year has been larger than the previous, just a steady continuous growth. I have to thank you for your liberal support which is very gratifying and the hundreds of new bidders. To them and others I would say, feel free to write me at any time for information or help in Numismatics. I spend most of my time arranging and selling collections sent me by friends who prefer the service I give.

As I do not issue any price lists of sale, send me a double post card any time with list of numbers you would like to know how sold. If they were not sold, I tell you so. No auction catalogue ever brings bids on everything, unless sent to chizelers. My catalogues only go to those who appreciate them. I drop a hundred names off the mailing list every month and add a hundred new ones.

Prices are going up, due entirely to the increased buying power of our people. The ten million men out of work in the Roosevelt depression are now earning real money. Even young men and women with no business experience, earning fabulous wages. My own grandson, with a college education and no knowledge of business whatever, drawing down \$70 a week and likely not saving a penny. Remember some of this new buying power buy coins. Hence I again say it is a good time to send me those choice duplicates you do not need and let me sell them and buy war bonds with the money. I rather you write me first, what you have.

The new Standard Catalogue will be out in the Fall. Let me book you for a copy now, price \$2.50, but send no money until you get the book. I will acknowledge your order promptly so you know you can depend on this edition, which is a very important one. Hundreds of changes in prices. In fact the upward trend on Uncirculated and proof coins will be 25%. Take this into consideration when you bid on this class of material.

A complete set of Commemorative Half Dollars of 111 pieces Unc in this new book will list \$482. The lowest price reliable dealers are offering such a set is \$450. The set I listed sold for over \$400. The Grant with star sold for \$36.50. The Cincinnati set \$16.35. The two rare small Boones of 1935, \$33.25. The Arkansas 1938 set \$21 which was too low as it will list \$27.50 in new edition. 1939 Oregon \$18.50. 1939 Arkansas \$28.25. It will list more than that in new book. If you have a duplicate set, as did this owner, why not send it to me now and realize these fine prices, which will bring the set you keep down to a minimum figure.
